

**CZ5001****PATROL & PATROL ACE****Portable Appliance Test & Tag Kit**

Australian designed and manufactured

## Are you ready to make your workplace safe?

### The Aegis Patrol - CZ5000

**Portable Appliance Tester** will perform the essential electrical safety tests required for **portable** appliances and equipment. It can be used to test domestic appliances, industrial appliances, power tools, and electric portable outlet devices, including extension leads.

- Does your business comply with the Australian and New Zealand Standard **AS/NZS 3760:2003** Electrical Safety?
- Are your electrical appliances tested and tagged on a regular basis?
- Fully Portable Battery Operated
- Drop Proof
- Weather Proof (IP66 with lid closed)
- Compact with all leads and accessories, including a set of Test Tags, housed in the instrument case.

## Perform "Leakage Current Measurement" to AS/NZS3760:2003

### The Aegis PATROL ACE - CZ5500

Offers a simple, quick and easy Leakage Current Measurement test, and when used with your PATROL (PAT) will ensure appliance testing meets the requirements of AS/NZS3760:2003. **The PATROL ACE** can be used to test appliances which cannot be tested by the DC method (250 or 500Vdc Insulation Resistance Test).

- Continuous Leakage Current Measurement with instant results.
- Full function self test ensures safe reliable test results.
- Self tests automatically every 10 minutes of operation.
- A set of 4 LEDs provide easy recognition of the test results.

#### PACKAGE KIT:

The Patrol and Patrol Ace are available as a kit (CZ5001) or separately to suit all levels of appliance testing requirements.
